

DUCTING

DUUFM

URAFLEX MEDIUM

ESTER-POLYURETHANE

- Temperature: -30°C to +90°C
- Material: Ester-polyurethane
- Colour: Transparent
- Standard Length: 10 metres and up to 15 metres on request.
- Properties: Good flexibility, light weight, high mechanical strength, compressible, good mineral oil resistance.
- Applications: Especially suitable for abrasive dust, powders, CNC extraction, seed drills, vacuum lifting, fibres and sawdust. Not suitable in wet humid or moist conditions.
