

PNEUMATIC COUPLERS

QA210-E

ARO 210 INTERCHANGE
FEMALE THREAD COUPLING

- Temperature range: -20°C to + 100°C (-4°F to +212°F)
- Working pressure: 0 to 35 bar (0 to 508 psi)
- Flow capacity: NW - 5
- Material: Coupler body, Sleeve, Valve: Brass
- Spring, Pins: Stainless steel
- Seals: Nitrile
- Plug: Steel
- Applications: Robust brass coupling with numerous connection options. Preferred application is the compressed air technology industry.
- Also particularly suited to use with water due to the brass valve.
- Interchangeability: TST 022, Rectus 14 & 22, ARO 210, Parker 50, Cejn 300, Orion 44150, JWL 522 & 532

Part Number	BSPF
QA210-E04	1/4
QA210-E06	3/8
