

HDDO TRANSMISSION

DEXRON III

AUTOMATIC TRANSMISSION & POWER STEERING

- Product Description: DX3 is an automatic transmission fluid (ATF) for use in older automatic transmissions requiring Dexron® IIIH or Mercon® performance. It is also suitable for use in transmissions requiring other common performance levels such as Allison C4 and TES-389, and power steering, pump and hydraulic applications.
- Specifications: DX3 meets the following demanding performance requirements
 - Allison TES-389B and C-4
 - Ford Mercon® and XL-12
 - General Motors Dexron® IIIH
 - Volvo 97325, 97335 and 97340
 - ZF TE-ML 05L, 09L and 21L
 - TASA
 - Auto Trak II
 - BTR 95LE and BTR 85LE
 - Voith H55.6335.xx
 - Sperry-Vickers, Denison and Sundstrand hydraulic pump systems
 - Power steering fluid applications and many hydraulic systems and smaller rotary air compressors
