FLEET APPLICATION HOSE

PS188

POWER STEERING HOSE
BRAIDED FIBRE HOSE FOR POWER STEERING

- Due to manufacturing tolerances, the external dimension is an average.
- Recommended for: Power steering pressure lines.
- Internal tube: CSM based.
- Reinforcement: Two high strength nylon braids that resist high temperatures and allow for expansion for system noise dampening.
- External cover: CSM based.
- Temperature range: -40°C to +150°C. Standards: Gates proprietary. Designed to meet requirements of SAE J2050 specifications.

Part Number	Internal Size	Internal DN	Internal Diameter - inches	External Diameter - mm	Working Pressure - psi	Working pressure - bar	Min burst pressure - psi	Min burst pressure - bar	Min bend radius - mm
